Current country	Belarus
Wiliness to relocate	Yes
If confirm hired, how soon you can relocate	One month
Passport validity	2 years
Phone number	+375 29-684-24-23
Personal website	https://romanisthere.github.io/
Git(personal projects)	https://github.com/Romanisthere - all under MIT license
Website for one of my projects	https://romanisthere.github.io/PopUpOFF-Website/
Social networks	Don't waste your time, I don't use any except LinkedIn

Job Experience

The place	Altabel Group, Belarus	
Period	June 2018	Current time
Project Roles	Javascript Developer, Front-end Developer	
Employment	Full time	
Responsibilities	Development, Code review	

The place	H-W-H-P, Belarus	
Period	June 2018	Sep 2019
Project Roles	Tech Lead, Team Lead	
Employment	Part time	
Role as Lead	People/team management, Interviewing, Designing architecture, Mentoring,Code review	

The place	H-W-H-P, Belarus	
Period	Jan 2016	May 2018
Project Roles	Full-Stack Developer, Tech Lead, Team Lead, Front-end Developer	
Employment	Full time	
Responsibilities	Back-end and Front-end Development, Testing, Code reviewing	
Role as Lead	Team(2-6 person) management, Interviewing, Designing architecture, Teaching	

Selected Project Experience

Period	April 2019	Current time
Project Roles	Javascript Developer	
Project	British medical startup - Application with microservices architecture	
Responsibilities & Achievements	Development(Front-end) Suggestion and discussion features Code review	
Environment	Tools: Sublime, SourceTree, Slack, JIRA, Google Cloud Techs: TypeScript, WebGL, ThreeJS, Angular 6-8, CSS3, HTML5, ESNext, Web Workers API	

Period	December 2018	February 2019
Project Roles	Tech Lead	
Project	Website with 3D furniture constructor	
Responsibilities & Achievements	Designing architecture of application Development(Front-end) Scheduling tasks for team members Supervision Code review	
Environment	Tools: Sublime/Atom Techs: WebGL, ThreeJS, Webpack, Sass, HTML5, Youtube API, Yandex API, Babel, ES6, jQuery, Pug, BEM - Methodology	

Period	July 2017	November 2018
Project Roles	Front-end Developer	
Project	Cross-platform(windows and android) mobile/tablet app(game) with competitive mechanics	
Responsibilities & Achievements	Designing architecture of application Development(Front-end) Code review Testing	
Environment	Tools: Sublime, Android Studio Techs: Cordova, PhoneGap, ElectronJS, jQuery, HTML5, ThreeJS, Less, BEM - Methodology	

Period	April 2017	June 2017
Project Roles	Tech Lead	
Project	Software for Installation(big tablet-like screens in places like shop etc)	
Responsibilities & Achievements	Designing architecture of application Front-end Back-end Designing architecture of database Scheduling tasks for team members Supervision Code review	
Environment	Tools: Sublime, Ubuntu terminal Techs: HTML5, jQuery, NodeJS, MongoDB, Mongoose, ExpressJS, KeystoneJS, Ubuntu Services, PHP, BEM - Methodology	

Period	January 2017	March 2017
Project Roles	Full-stack Developer	
Project	Multi-platform chat-bot(FB,VK) with admin panel	
Responsibilities & Achievements	Designing server-side architecture Designing architecture of database Back-end Front-end Testing	
Environment	Tools: Sublime, Ubuntu terminal Techs: NodeJS, ES6, ExpressJS, KeystoneJS, RequestJS, FB/VK APIs, MongoDB, Mongoose, Nginx, Ubuntu services	

Period	September 2016	January 2017
Project Roles	Full-stack developer	
Project	Game for a promo-website with list of top-score users	
Responsibilities & Achievements	Designing server-side architecture Designing architecture of database Back-end Front-end Testing	
Environment	Tools: Sublime Techs: Canvas, SVG, jQuery, NodeJS, ExpressJS, MongoDB, Mongoose, Nginx, Ubuntu services	

Period	Marc 2016	July 2016
Project Roles	Front-end developer	
Project	Website with music player/visualisation	
Responsibilities & Achievements	Front-end Testing	
Environment	Tools: Sublime Techs: Canvas, SVG, jQuery, Web Audio API, Three JS	

Skills Matrix

Operating Systems	Experience, years	Level (Expert, Intermediate, Novice)	Last time used
MS Windows	10	Expert	2020
Linux (Ubuntu)	4	Intermediate	2020
Databases			
MySQL	1	Novice	2018
MongoDB	3	Intermediate	2019
Programming Languages			
JavaScript	5	Expert	2020
TypeScript	2	Intermediate	2020
PHP	1	Novice	2018
Elm	1	Novice	2020
Other Languages			
HTML	5	Expert	2020
CSS	5	Expert	2020
Frameworks/Tech/APIs:			
Angular	2	Intermediate	2020
React	3	Intermediate	2020
Redux	1	Intermediate	2020
AJAX	4	Intermediate	2020
jQuery	4	Intermediate	2020
NodeJS	3	Intermediate	2019
Sass	3	Intermediate	2019
LESS	3	Intermediate	2018
Stylus	1	Intermediate	2018
Pug	2	Intermediate	2019
Twig	1	Novice	2018
ExpressJS	3	Intermediate	2019
KeystoneJS	1	Novice	2019
Cordova	2	Intermediate	2018
PhoneGap	1	Novice	2018
ElectronJS	2	Intermediate	2018
ThreeJS	4	Intermediate	2020
RequireJS	2	Intermediate	2020
RxJS	1	Intermediate	2020
Lodash	2	Intermediate	2020
Gatsby	1	Intermediate	2020
Preact	1	Intermediate	2020
Web/App. Servers			

Apache HTTP	1	Novice	2019
Nginx	1	Intermediate	2019
IDEs:			
Sublime	4	Expert	2020
Atom	2	Expert	2020
Tools and Utilities			
Git	4	Expert	2020
Npm	4	Intermediate	2020
Webpack	4	Intermediate	2020
Eslint	3	Intermediate	2020
Babel	3	Intermediate	2020
Yarn	2	Intermediate	2019
Gulp	2	Intermediate	2019
Methodologies			
BEM	4	Intermediate	2020
Scrum	2	Intermediate	2019
Agile	3	Intermediate	2020
